Delete folder from a workspace:

The screenshot shows the BV-BRC workspace interface. The top navigation bar includes 'ORGANISMS', 'SEARCHES', 'TOOLS & SERVICES', 'WORKSPACES', and 'HELP'. The current workspace is 'ARWattam / MacArthur Foundation Genius Award / Important data'. A table lists the contents:

Name	Size	Owner	Members	Created
Parent folder			-	
Corrupt data		me	Public	5/10/22, 5:08 PM
all_lp54_Borrelia_genomes_named.fasta	1.7 MB	me	Public	5/10/22, 5:01 PM

A vertical toolbar on the right contains icons for HIDE, GUIDE, DOWNLOAD, DELETE, RENAME, COPY, MOVE, and EDIT TYPE. The 'Corrupt data' folder is highlighted in blue.

A dialog box titled 'Confirm Action' is displayed. It contains the text: 'Are you sure you want to delete this folder and its contents?'. At the bottom right, there are two buttons: 'Cancel' and 'OK'.

The screenshot shows the BV-BRC workspace interface after the folder deletion. The workspace is 'ARWattam / MacArthur Foundation Genius Award / Important data'. The table now only contains the file 'all\_lp54\_Borrelia\_genomes\_named.fasta':

Name	Size	Owner	Members	Created
all_lp54_Borrelia_genomes_named.fasta	1.7 MB	me	Public	5/10/22, 5:01 PM

The 'Corrupt data' folder is no longer present in the list. The vertical toolbar on the right is partially visible, showing HIDE, GUIDE, and DOWNLOAD icons.
